#### 5. Signature

Place and date	For the applicant (director in charge/authorised signatory), in block capitals and signature
----------------	--

# Application form instructions

---

## 1. Applicant information

The applicant (administrating organisation) is responsible for managing the funding, realisation, reporting and accounting.

The applicant must conduct relevant activities in relation to the purpose of the call and can be a public organisation or institution, or another applicant provided that they are legal entities with Swedish corporate identity numbers, guarantee academic freedom within the assignment, and that the results are accessible to researchers, authorities, companies and the general public. If the applicant is engaged in both economic and non-economic activities, the applied funding may only be used for non-economic operations. In such case, the financial reports for its economic and non-economic operations must be separate.

## 2. Basic information about the activity

Complete the project title, in Swedish or English. The funding period run 1 September to 31 December of the year after the decision on the application granted.

Present a summary, in Swedish or English, containing the following sections (see below). If the activity is funded, the summary may be published on the SLU Swedish Species information Centre's website, and therefore it is important that the description is understandable to those who are not specialists in the field.

- The purpose and goals of the activity
- How the activity will be undertaken including organisation and schedule
- Relevance and how is the activity complies with the aims of the funding call
- Participants and audience
- Outcomes including how data will be stored and made available

## 3. Applied funding

Costs are typically stated excluding VAT and given in Swedish kronor. Costs shall be specified and justified under the designated headings. Please provide details for payment in the event that funding is approved.

The co-financing field indicates whether the activity is partly financed from other sources than those that are applied for from SLU Swedish Species Information Centre but that are required for the completion of the project.

## 4. Funding from other Nordic species information projects and/or from SLU Swedish Species Information Centre

If the applicant holds funding from another Nordic species project and/or SLU Swedish Species Information Centre, this should be noted and clarified in the assigned field (project title, funding agency, total sum (kr), percentage of full time, delimitation from applied for project).

If a funding for a similar project to the one applied for from the Swedish Taxonomy Initiative is obtained then the Swedish Taxonomy Initiative research office should be contacted immediately [ansokan.artprojekt@slu.se](mailto:ansokan.artprojekt@slu.se).

## 5. Signature

The application is to be submitted according to instructions and via the web form that you can access via the SLU Swedish Species Information Centre website ([www.artdatabanken.se](http://www.artdatabanken.se)).

The application form must be signed by the applicant (director in charge/authorised signatory) and uploaded via the online form. Signing can be done either electronically via <https://edusign.sunet.se/> or manually. If the signature is to be done via hard copy then the original application must also be sent by post to the address below.

In the case of electronic signing, those who are employed in the higher education sector already have an account linked to eduSign. Select your institution on the front page and follow the instructions. You first need to create an eduID, which is done on <https://eduid.se/>. If you are not employed in the higher education sector. To log in to eduSign, search for eduID Sweden in the list of universities.

SLU Swedish Species Information Centre (Artdatabanken)  
The Swedish Taxonomy Initiative Research Office  
Box 7007  
750 07 Uppsala

The application must be submitted to the SLU Swedish Species Information Centre no later than **May 9, 2022**.
